

OBJECTIVE

This course's objective is to empower surgeons with the knowledge and practice to efficiently handle cataract surgery-related complications. The Manual Small Incision Cataract Surgery (MSICS) is a pivotal procedure that addresses the escalating demand for cataract treatments in underprivileged economies and areas with limited resources.

This course is critical for surgeons who operate in these challenging conditions, not only to perform seamless surgeries but also to be adept at tackling unexpected surgical complications. In essence, we are committed to honing your expertise to ensure you are well-prepared and skilled to navigate any obstacles that may arise during cataract surgeries.

Course ideally suited for:

- Surgeons and practicing ophthalmologists seeking to enhance their proficiency in managing cataract complications
- Surgeons who have completed the MSTC or PMDC (Phaco to MSCIS differences)
- Ophthalmology residents and fellows looking to broaden their knowledge base and hone their surgical skills

The course is reserved for:

- Ophthalmology residents
- Practicing and senior ophthalmology surgeons
- Healthcare professionals authorized by their country to practice ophthalmology

DURATION

1 day

SUPERVISORS

Our simulation courses are led by certified instructors

TERMS

- Completion of a form to better know the participant's experience
- Access to e-book
- E-learning and/or pre-tests to be done before the on-site course
- No score is eliminatory
- Practical sessions on the simulator with assessments after each module
- Certificate of completion and satisfaction survey

ACCESSIBILITY

- Accessible premises and services adapted for people with disabilities. To take part in the courses, please contact the organisation's disability advisor

PEDAGOGY

- The training is participative, alternating theoretical classroom sessions with practical sessions on the simulator
- Course language: French and/or english

SUPPORT

Access to e-book for 1 year

ASSESSMENT

The knowledge acquired will be evaluated by assessments at the end of each chapter. Overall satisfaction will be assessed at the end of the course.

CERTIFICATION

Every participant will receive a certificate of completion at the end of the course.

TRAINING COSTS

Please contact us for more information about the price. Lunch and coffee breaks are included in the final price.

DAY 1	
08:45	EXPLORA: Welcome
09:00	Introduction and Simulator Orientation
09:45	Sphincterotomy - Sim
10:00	Sphincterotomy - Debrief
11:00	Capsular Tension Ring - Sim
11:15	Capsular Tension Ring - Debrief
12:00	LUNCH — LE PETIT CAFE
13:00	AC IOL Implantation - Sim
14:00	AC IOL Implantation - Debrief
14:15	Assessment
14:45	Feedback and Certification
15:00	END OF THE DAY
